

2018 Summer Land Management Internship

Mississippi Valley Conservancy (the Conservancy) is a regional, non-profit land trust based in La Crosse, WI that has permanently conserved nearly 20,000 acres of blufflands, prairies, wetlands, and streams in southwestern Wisconsin. The Conservancy owns and manages 20 different properties totaling over 3,300 acres and also works with private landowners and local communities on voluntary conservation projects and environmental education in nine counties along or near the Mississippi River.

Summary of Position: We will be hiring 4 paid Land Management Interns who will assist with habitat management and restoration of native prairie, forest, oak savanna, and wetland habitat on Conservancy-protected lands throughout southwest Wisconsin. Managing the ecological health of the natural communities throughout the Mississippi River Valley is rewarding hard work. Interns may gain skills and expertise in aspects of wildlife habitat management, including species identification, GIS mapping, timber stand improvement, prairie planting, oak savanna and prairie restoration, invasive species control, and trail maintenance. In addition to the boots-on-the-ground land management and restoration experience, interns may assist with writing grants, management plans, species monitoring and inventory, project proposals, as well as public speaking, leading public hikes, volunteer work days, and helping with environmental education.

Duties include equipment maintenance, invasive species control, use of herbicides, tree and brush removal, prairie restoration, boundary posting, supervising school and volunteer groups, coordinating work days and events, writing articles, and more. Sites and projects will be physically demanding and provide excellent hands-on experience in many facets of land management. These positions will be approximately 95% field work and 5% office/shop work. Chainsaw and plant identification experience preferred.

Knowledge, Skills, and Abilities:

- Working outdoors in adverse conditions (heat/cold, biting insects, etc.)
- Sincere interest in preserving southwest Wisconsin's ecosystems
- Strong work ethic & positive attitude
- Physically fit & able to work long days on steep, rugged terrain
- Plant and tree identification & experience with ArcGIS preferred
- Ability to communicate effectively, both verbally and in writing
- Ability to work independently and as part of a team
- Possess a valid driver's license and working vehicle
- Willingness and ability to use herbicides, chainsaws and other power equipment preferred

Details:

Land Management Interns will work primarily with Land Manager Levi Plath and the internships run from June 4th until August 31st. The successful candidates will work approximately **30 hours/week** dependent on weather conditions and land management priorities and will be paid **\$10/hr**. **Applications will be accepted until Thursday May 10th and interviews will occur the week of May 14th – 18th.**

How to Apply:

Please email Levi Plath, Land Manager at contact below:

- A cover letter outlining your qualifications and why you want this position
- Resume
